Connected Partner Update

Now Introducing: Forensic Analytics

LexisNexis® Risk Solutions is excited to announce that our next Connected Parter is **Forensic Analytics. Lima™ Cell Monitor** by Forensic Analytics is now available to government and law enforcement agencies through the **Accurint® Public Safety Marketplace.**

The Forensic Analytics Lima Cell Monitor is a multi-Subscriber Identity Module (SIM) Radio Frequency (RF) survey solution capable of continuously measuring 2G, 3G, 4G, and 5G networks and Wi-Fi simultaneously. When crimes occur, having the right investigative tools to fully support your agency's mission is essential. When device geolocation is involved, the Lima Cell Monitor is a key, innovative solution that can provide precise and reliable data on cellular activity in an area of interest.

Learn More about Lima Cell Monitor and how we are helping agencies find the ground truth **here**.

To showcase the Lima Cell Monitor we will be holding an educational webinar on **Wednesday, August 20th at 2:00 pm ET**. During this session, Subject Matter Experts from LexisNexis Risk Solutions and Forensic Analytics will discuss the Lima Cell Monitor technology in more detail, address how this technology can benefit your agency during an investigation and explain how LexisNexis Risk Solutions is here to help agencies successfully use this technology.

Join us for this webinar on **Wednesday, August 20th at 2:00 pm ET.**

2025 ITI Summit Update

ITI Summit 2025

Secure the Early Bird Registration Rate

The 2025 LexisNexis® Investigative Technology and Innovation (ITI) Summit is quickly approaching. We have a great agenda in store for this year's attendees that will include educational sessions on our solutions as well as insights from some of our Accurint® Public Safety Marketplace Connected Partners. You don't want to miss this event designed for investigators, prosecutors and analysts.

We want to remind everyone that the discounted early bird registration rate will end on August 15th. After this date, the registration fee will increase from $400 to $450 per person. To secure the $400 early bird rate, make sure you submit your registration today!

Enhanced Case Resolution: Better Together

Single-sign-on access to commercial License Plate Reader (LPR) data, provided by Insight LPR MX Guardian, is now available through Accurint® Virtual Crime Center. Users can now seamlessly work between the two solutions, expanding their investigative reach by enhancing commercial LPR data captured in the Insight LPR MX Guardian solution with the

LexisNexis® Risk Solutions data assets and linking technology.

Download the article to learn more about a real use case example where officers utilized Insight LPR MX Guardian and the Accurint Virtual Crime Center to track a vehicle involved in a shooting case.

Expanding Resources Impacting Community Safety

The One Big Beautiful Bill Act will deliver increased funding, operational support and expanded partnerships, which some law enforcement leaders believe could enhance agency effectiveness, boost officer morale, and improve overall public safety outcomes in many American communities.

Read our article today to learn more about the One Big Beautiful Bill Act and what every law enforcement agency should know.
